Error Log

The following are potential Tier 1 (Ed-Fi API generated) or custom (Campus generated) errors you may receive when posting, updating, or deleting this resource. Please keep in mind that the "Error Message" below may not match your exact error message.

Error Message	Possible Causes / How to Fix
Error code return from Ed-Fi. 409: { "message": "The value supplied for the related 'program' resource does not exist.", "correlationId": "6a964092-0d34-49fe-8e5b-201247ab8ee7" }.	• Most Likely Cause: Each calendar year, districts need to communicate with AzEDS on what program(s) they are offering at their district. This is the case for Title 1, Food Service, etc. If you are receiving this error, it is recommended to contact AzEDS to verify that the program exists for your district. • Alternative Cause: The programName or programTypeDescriptor we are reporting was changed from one school year to another. We are currently sending the incorrect value. This will require a development change, and it is recommended to contact Campus Support if you believe this is the issue.

400: Validation of ' RESOURCE ' failed. FIELD is required.	An element of the JSON that is required is missing and needs to be added. Double check that all bolded data elements below are reporting a valid value and no data elements below are reporting an invalid value.
400: ' RESOURCE ' failed. RESOURCE reference could not be resolved.	A resource that was referenced from a difference resource does not yet exist. Resync the resource being mentioned in the error, then resync the errored resource. Alternatively, the resource being referenced may be incorrect. This can happen with Schools and the Ed-Fi School ID being used as an example. Double check the referenced values being sent are valid.
403: Authorization denied. The claim does not have any established relationships with the requested resource.	The key/secret being used does not have permission to send a record for the resource / referenced resource. - Double check your API credentials (key/secret). Sometimes specific keys/secrets cannot report specific resources. - The referenced person (student, staff, parent, contact, etc.) has not yet been associated to the key/secret. Resync their "linking" resource (Students Student School Associations, Staffs Staff Education Organization Assignment Associations, etc.) then resync the errored resource. - The referenced person (student, staff, parent, contact, etc.) may not exist in the ODS yet. Resync the "person" resource and the "linking" resource (Students Student School Associations, Staffs Staff Education Organization Assignment Associations, etc.) then resync the errored resource.
404: Failed to delete ' RESOURCE '. Record does not exist.	The attempt to delete a specific Ed-Fi record ID in the ODS failed because it did not exist. This error can be ignored. The ID was cleared from the Ed-Fi Identity Mapping Report and will not attempt to delete again.

409: A natural key conflict occurred when attempting to create a new resource 'RESOURCE' with a duplicate key.	The Ed-Fi API has a natural key system alongside a standard REST ID system. This error is often protecting against the erroneous creation of a duplicate record in the API. However, it may also indicate that the natural key requirements of the Ed-Fi API have not been satisfied, and the key needs to be modified. • Check for duplicate data in your Campus site. If no duplicate data can be found, report the issue to Campus Support. ◦ This can be caused by numerous issues. Our code may be attempting to send duplicate records when it should not. The natural key (bolded fields below) may not be unique enough to satisfy Ed-Fi requirements in all cases. Most times this error will require a code change to fix.
409: The resource (or a subordinate entity of the resource) cannot be deleted because it is a dependency of the 'RESOURCE' entity.	The resource that the application is attempting to delete is referenced from another entity. • Use the Delete Tool to delete the referenced resource in the error message. Then retry the delete on the original resource that errored.
500: Internal Server Error.	Something unexpected happened and no specific error message could be returned. • This issue usually occurs when the ODS is having issues. Confirm that there are no issues with the ODS the data is being sent to and then attempt to retry the errored record. • Contact Campus Support if 500 errors continue to occur, can be replicated consistently, and the ODS the data is being sent to has no ongoing issues. ◦ There is a chance that Campus Ed-Fi code is sending an invalid JSON request resulting in the 500 error. ◦ There is a chance that an Ed-Fi Data Standard / API bug is causing the issue. ◦ Investigation is needed in these cases as there are many different potential causes.

21 CCLC

Object Triggering Logic

21 CCLC Programs are set-up by the district/school and assigned to students in 21st CCLC.

Action	Business Rule(s)
Post	When the student has a <i>21st CCLC Program</i> record that overlaps an Enrollment with Local Service Type of <i>O: Program Only</i> AND The Resident District of the Enrollment must match either (1) the State District Number for the district on the site or (2) one of the District Numbers in the multiple connections of the Ed-Fi Connection being reported out of. - Do not report a record if the any of the following exclusions are present: - Enrollment State Exclude - Enrollment No Show - Enrollment Grade Exclude from State Reporting - Calendar Exclude - School Exclude 21st CCLC Start Date must be on or after Enrollment Start Date to report 21st CCLC End Date must be either NULL or after Enrollment Start Date to report - If there are multiple enrollments of type <i>O: Program Only</i>, use the following priority list to determine which one should report: - Earliest End Date (NULL = Earliest) - Lowest Enrollment ID

Delete / Post Put	A DELETE / POST will be performed if the data element being altered is part of the resource's natural key. A PUT will be performed otherwise. - When the following information on the student's associated <i>21st CCLC Program</i> is changed: 21st CCLC ID (New 21st CCLC Program) - Start Date - End Date - Program - Exit Reason - When the following information on the student's associated Enrollment changes: - Enrollment ID (New Enrollment) - No Show - State Exclude - Start Date - End Date - Resident District - Local Service Type
Delete	- When the <i>21st CCLC Program</i> Start and End Dates are changed so that they no longer overlap the Enrollment. - When the Enrollment Start and End Dates are changed so that they no longer overlap the <i>21st CCLC Program</i>. - When the <i>21st CCLC Program</i> is deleted. - When the Enrollment is deleted. - When the student is now excluded in some way.

Object Data Elements Logic

Data element labels below in **BOLD** are part of the natural key of this resource and are required data elements for the record to send through Ed-Fi.

English Learners (EL)

Object Triggering Logic

English Learners (EL) Programs are set-up by the district/school and assigned to students in **English Learners (EL) Services**.

Action	Business Rule(s)
Post	When the student has an English Learners (EL) Services record that overlaps an Enrollment in the configured year. • If there are multiple enrollments, use the following priority list to determine which one should report: ◦ Local Service Type of Primary ▪ Primary local service types will always report if they are different Start Dates ▪ If the same Start Date, the earliest Enrollment ID will be used. ◦ Local Service Type other than Primary ▪ These will only be used if they are the only enrollment in a given timeframe. This means that the Enrollment does not overlap with any other Enrollment from the same school or any other school. • A record is only reported for EL Service records and Enrollments in the same School Year as the Ed-Fi Connection sending the record. ◦ School Year dates are defined in School Year Setup. ▪ If Start Date is NULL, 07/01/StartYear will be used. ▪ If End Date is NULL, 06/30/EndYear will be used. • Do not report a record if the any of the following exclusions are present: ◦ Enrollment State Exclude ◦ Enrollment No Show ◦ Enrollment Grade Exclude from State Reporting ◦ Enrollment Start Status is <i>E: NON-SAIS DISTRICT USE ONLY!</i> ◦ Calendar Exclude ◦ School Exclude ◦ Enrollments with a Local Service Type OTHER THAN P: Primary or T: AOI must have their Resident District match one of the following to report: ▪ The State District Number for the district on the site ▪ One of the District Numbers in the multiple connections of the Ed-Fi Connection being reported out of.

Delete /Post Put	A DELETE / POST will be performed if the data element being altered is part of the resource's natural key. A PUT will be performed otherwise. - When the following information on the student's associated EL Services record is changed: - EL Services Record ID (New EL Services record) - Start Date - End Date - Service Type - Exit Reason - When the following information on the student's associated Enrollment changes: - Enrollment ID (New Enrollment) - No Show - State Exclude - Start Date - End Date - Local Service Type - Start Status - Changes to Resource Preferences mappings do NOT trigger. A manual resync must be performed on the resource if mappings are changed.
Delete	- When the EL Services Start and End Dates are changed so that they no longer overlap the Enrollment. - When the Enrollment Start and End Dates are changed so that they no longer overlap the EL Services record. - When the EL Services record is deleted. - When the Enrollment is deleted. - When the student is now excluded in some way. - When a record is in the Ed-Fi Identity Mapping Report but cannot be found on the Campus site.

Flags / Programs

Flags are set-up by the district/school in **Flags Setup**. *Flags* are assigned to students in **Flags**. *Programs* are set-up by the district/school in **Program Setup**. *Programs* are assigned to students in **Programs**.

Note: Districts should choose **ONE** method (Flags or Programs) per need and stay consistent. If a need is created in both areas, two records will send.

Object Triggering Logic

Action	Business Rule(s)
Post	When the student has a Flag or Program record that overlaps an Enrollment in the configured year. - Flags must be marked as State Reported to report. - A record is only reported for Flag/Program records and Enrollments in the same School Year as the Ed-Fi Connection sending the record. - School Year dates are defined in School Year Setup. - If Start Date is NULL, 07/01/StartYear will be used. - If End Date is NULL, 06/30/EndYear will be used. - If there are multiple enrollments, use the following priority list to determine which one should report: - Local Service Type of Primary - Primary local service types will always report if they are different Start Dates - If the same Start Date, the earliest Enrollment ID will be used. - Local Service Type other than Primary - These will only be used if they are the only enrollment in a given timeframe. Section 504

Object Triggering Logic

Section 504 Programs are set-up by the district/school and assigned to students in [Section 504](#).

Action	Business Rule(s)
Post	When the student has a Section 504 record that overlaps an Enrollment in the configured year. • A record is only reported for Section 504 records and Enrollments in the same School Year as the Ed-Fi Connection sending the record. ◦ School Year dates are defined in School Year Setup. ▪ If Start Date is NULL, 07/01/StartYear will be used. ▪ If End Date is NULL, 06/30/EndYear will be used. • If there are multiple enrollments, use the following priority list to determine which one should report: ◦ Local Service Type of Primary ▪ Primary local service types will always report if they are different Start Dates ▪ If the same Start Date, the earliest Enrollment ID will be used. ◦ Local Service Type other than Primary ▪ These will only be used if they are the only enrollment in a given timeframe. Title 1 Programs (Schoolwide)

Object Triggering Logic

Title 1 Schoolwide Programs are set-up by the district/school in [School Information > School History](#).

Action	Business Rule(s)
Post	When the school has a School History record that overlaps the configured year with Title 1 set to <i>Schoolwide Program</i> and at least one of the following checkboxes checked: Title 1 Math, Title 1 Other, Title 1 Reading, Title 1 Science, Title 1 Social Studies. - A record is only reported for Title 1 records and Enrollments in the same School Year as the Ed-Fi Connection sending the record. - School Year dates are defined in School Year Setup. - If Start Date is NULL, 07/01/StartYear will be used. - If End Date is NULL, 06/30/EndYear will be used. - If there are multiple enrollments, use the following priority list to determine which one should report: - Local Service Type of Primary - Primary local service types will always report if they are different Start Dates - If the same Start Date, the earliest Enrollment ID will be used. - Local Service Type other than Primary - These will only be used if they are the only enrollment in a given timeframe. This means that the Enrollment does not overlap with any other Enrollment from the same school or any other school. - Do not report a record if the any of the following exclusions are present: - Enrollment State Exclude - Enrollment No Show - Enrollment Grade Exclude from State Reporting - Enrollment Start Status is <i>E: NON-SAIS DISTRICT USE ONLY!</i> - Calendar Exclude - School Exclude - Student has a Title 1 Individual record (Individual record reports instead of Schoolwide record) - Enrollments with a Local Service Type OTHER THAN P: Primary or T: AOI must have their Resident District match one of the following to report: - The State District Number for the district on the site - One of the District Numbers in the multiple connections of the Ed-Fi Connection being reported out of.

Delete / Post Put	A DELETE / POST will be performed if the data element being altered is part of the resource's natural key. A PUT will be performed otherwise. - When the following information on School History is changed: - School History changes DO NOT TRIGGER. A manual resync is required on Student Program Associations if Title 1 Schoolwide configurations are changed. - When the following information on the student's associated Enrollment changes: - Enrollment ID (New Enrollment) - No Show - State Exclude - Start Date - End Date - Start Status - Local Service Type - Changes to Resource Preferences mappings do NOT trigger. A manual resync must be performed on the resource if mappings are changed.
Delete	- When the School History no longer reports a specific Title 1 record (Checkbox is unchecked). - When the School History is deleted. - When the Enrollment is deleted. - When the student is now excluded in some way. - When the student now has an individual Title 1 record that can report. - When a record is in the Ed-Fi Identity Mapping Report but cannot be found on the Campus site.
