TN Ed-Fi Suite 3 API v6.2 Data Standard v4.0: Grading Periods

Summary

This entity represents the time span for which grades are reported.

Object Triggering Logic

Action	Business Rule(s)
Post	When a new Grading Period is created and saved in Resource Preferences and a resync is completed. • Do not send if the School is marked as Exclude • Do not send if the Calendar is marked as Exclude • Do not send if there are no days for that school
Put	When the Grading Period Start or End Date is updated and saved and a resync is completed When the Instructional checkbox is checked or unchecked, the totalInstructionalDays field will update with the correct number of instructional days When the Period Sequence is changed
Delete /Post	When the Grading Period's Grading Period Descriptor or Sequence is edited and saved in the Resource Preferences and a resync is completed.
Delete	When the Grading Period is removed and saved in Resource Preferences and a resync is completed. When the last day record is deleted from the days table

Required Resources (Upstream)

The following resources must be sent prior to this resource:

- Schools (Preloaded)

Dependent Resources (Downstream)

The following resources are dependent on this resource (must be sent after this resource):

- Grades

Object Data Elements

Data element labels below in **BOLD** are part of the natural key of this resource and are required data elements for the record to send through Ed-Fi.

- The Mandatory / Conditional / Optional column indicates what the state requires for each data element.

	Data Element Label	Business Rule(s)	Mandatory/ Conditional/ Optional	Tool Path	Database Field	Uses Core Template Rules (Y/N/EXT)
1	gradingPeriodDescriptor <i>(string)</i>	<i>The name of the grading period</i> 1. Report the code value from the Grading Period Name selected	M	Ed-Fi Configuration	edfigradingperiod.name	Y

2	periodSequence (integer)	<i>The sequence of the grading period</i> - Report the period sequence for the Grading Period being reported. - The sequence will be auto-generated based on an assigned value. This value can be overwritten if necessary - The sequence can be changed in the individual record as long it is unique to the Grading Period Descriptor and School combination. - Two Grading Periods in the same school can have the same sequence as long as the Grading Period Descriptor is not the same. - Two Grading Periods in the same school can have the same Grading Period Descriptor as long as the Sequence is not the same - Two Grading Periods with the same Grading Period Descriptor can have the same sequence as long as they are assigned to different schools. - The sequence is determined based on the name of the 'number' in the Grading Period Descriptor up to 6. Example 'First Semester' will have a sequence of 1, 'First Nine Weeks' will have a sequence of 1. If the Grading Period Descriptor number is over 6 or cannot be determined, a default value of 1 will report.	M	Ed-Fi Configuration	edfigradingperiod.sequence	Y
3	schoolReference (reference)	<i>The identifier assigned to a school.</i> Reports the natural key of the School resource the grading period is aligned to	M	N/A	N/A	Y

4	schoolYearTypeReference <i>(reference)</i>	<i>A reference to the related SchoolYearType resource</i> 1. Reports the end year from the calendar the term is reported a. Reports 'XXXX'	M	N/A	N/A	Y
5	beginDate <i>(date-time)</i>	<i>The start date of the grading period</i> 1. Report the start date from the Grading Period being reported 2. If there is more than 1 grading period with the same School, Descriptor and Sequence, report the earliest start date	M	Ed-Fi Configuration	edfigradingperiod.startDate	Y
6	endDate <i>(date-time)</i>	<i>The end date of the grading period</i> 1. Report the end date from the Grading Period being reported 2. If there is more than 1 grading period with the same School, Descriptor and Sequence, report the latest end date	M	Ed-Fi Configuration	edfigradingperiod.endDate	Y

7	totalInstructionalDays (integer)	<i>The total number of instructional days in the grading period</i> 1. Count the number of instructional days on the Days tab that occur during the start and end date for the grading period a. If there is more than 1 calendar or schedule structure, report the distinct number of instructional days from all calendars/schedule structures that have that specific grading period (same school, descriptor, and seq)	M	Calendar Days	day.instruction	Y
