

**Step 1:** Welcome to the Norton Testmaker demo! This guide will show you how to create quizzes/tests using our online test bank. It will also show you how to save your test as a Microsoft Word File or as a file that can be imported into your LMS course. Note: This is an example, and the textbook or digital resources in your course may be different.

**Step 2:** To get started, go to [www.wwnorton.com](http://www.wwnorton.com) and log into your account

**Step 3:** Next, use the search bar to search for your book by title

**Step 4:** Select "Instructor Resources" beside the newest edition of the book that you are using.

**Step 5:** Navigate to the menu on the left-hand side and select "Test Bank"

**Step 6:** Click the teal button that says "View Norton Testmaker"

**Step 7:** This is the Norton Testmaker homepage. Any test that you create will be saved on this page and can be downloaded or exported at any time. If you plan on using our test bank throughout the semester, it may be a good idea to bookmark this page.

**Step 8:** Click "Create New Test" to get started on your first test.

**Step 9:** Give your test a name and input your course name and then click "Create Test."

**Step 10:** Narrow down the pool of questions by selecting "Add Filters." You can also search for specific questions if you know exactly what you are looking for.

**Step 11:** Click the downward facing arrow on the right side of a filter category to select specific filters.

**Step 12:** Check the box to the left of any filters you would like to apply.

**Step 13:** Click "Apply" when you are done selecting filters.

**Step 14:** Click the yellow circle with a plus symbol inside it to add a question to your quiz. Once selected, a question will move over to the right side of your screen within the test that you are creating.

**Step 15:** Once you have selected all of the questions you want, you then have the option to edit the question if you want to change the wording at all.

**Step 16:** Click "Save" when you are completely satisfied with your new test.

**Step 17:** To save the test onto your computer for the purpose of importing the test to your LMS or saving it as a Microsoft Word file, select "Export."

**Step 18:** Select whether you would like to save the file as a Word Document or an LMS import file.

**Step 19:** Click "Export" and this will save the file to your computer wherever you house your downloads.

**Step 20:** Please select the intended destination for your test to continue on to next steps...
