What's New

This major release introduces a significant upgrade to the Attendance Register within Meeting Hub, designed to improve how managers prepare for and manage meeting attendance. The refreshed interface enables managers to efficiently add, update, and manage one or more attendees or apologies at the same time.

1. View Both Confirmed and Unconfirmed Participants

The Attendance Register now displays not only attendees and apologies, but also individuals on the building roll and office bearers who are yet to confirm their attendance. This provides managers with a complete view of everyone who may participate in the meeting – including those who have not yet registered as attendees.

Given Name	Surname	Capacity	Lot	Unit	Attendance Method	Voting Method	Votes	Financial in BCMax	Financial	Eligible to Vote

4. Add and Update Multiple Attendees at Once

Managers can now select multiple records on the Attendance Register and apply changes to attendance and voting methods in one action. A new 'Update Attendance' button appears when one or more records are selected.

The screenshot shows the 'Meeting Hub' interface with the 'Attendance Register' tab selected. A sidebar on the left contains navigation links: Meetings, Historical Meetings, Standard Motions, Standard Agenda Items, Standard Meetings, Template Groups, and Online Help. The main area displays a table of attendees. At the top, there are buttons for 'Back', 'Refresh', and 'Download Sign-in Sheet'. A 'Quorum' indicator shows '3 of 27 required'. A warning message states: 'There are inconsistencies in an attendees financial status. Set all attendees financial status to match their financial in BCMMax status'. Below this is a filter bar and a toolbar with '2 Selected', 'Update Attendance', 'Add Unlisted', and sorting icons. The table has columns: Given Name, Surname, Capacity, Lot, Unit, Attendance Method, Voting Method, Votes, Financial in BCMMax, Financial, and Eligible to Vote. Two rows are selected: 'Damien Scott Mathieson' and 'Georgia Thomson'. The 'Update Attendance' button is highlighted with a green box.

Given Name	Surname	Capacity	Lot	Unit	Attendance Method	Voting Method	Votes	Financial in BCMMax	Financial	Eligible to Vote
Sage	Greenberg	Owner	16	16	Present Pre-Meeting	VoteMax Pre-Meeting		Yes		
Damien Scott	Mathieson	Owner	11	11	Present at Meeting	Voting Paper		No		
Georgia	Thomson	Owner	23	23	Present at Meeting	In Person	+	Yes		
Sam	Muir	Office Bearer (Body Corp. Manager)			Present at Meeting	Non-Voting Attendee	+			
Jennifer	Pulston	Owner	17	17	Apology	Non-Voting Attendee	+	Yes		
		Owner (Treasurer)	15	15				No		
Bradley	Jones	Owner (Chairperson)	9	9				No		
Deborah	Langley	Owner (Secretary)	2	2				No		
Annalise and Simon	Tucker	Owner (Committee Member)	5	5				No		
		Owner (Committee Member)	6	6				No		

Selecting 'Update Attendance' opens a dropdown menu where the attendance and voting methods can be selected.

This screenshot shows the same 'Attendance Register' interface as the previous one, but with the 'Update Attendance' dropdown menu open. The menu contains two dropdowns: 'Attendance Method' (with '-- Select One --') and 'Voting Method' (with '-- Select One --'). Below these are 'Apply' and 'Cancel' buttons. The background table and interface elements are the same as in the previous screenshot.

5. Improved Filtering and Display Options

New 'Show' buttons allow records on the Attendance Register to be toggled to show:

- Attendees – those registered for the meeting.
- Unconfirmed – those not yet marked as attendees.
- Selected – only currently selected records.
- All – full list (default view).
