Post	When a Term Descriptor Override is selected on a Course or Section and saved and the course is mapped to a Term Descriptor Override and a resync of Sessions is completed. • The Session will report the start and end dates based on the mapping of the course section • If the same Term Type is selected in the Terms tab and the Term Type Override, a record will not send from the override field • Do not send records if the Calendar Exclude check box is checked or Course is marked as Inactive or Exclude
