- [Dependent Resources \(Downstream\)](#)
- [Error Log](#)
- [Object Data Elements Logic](#)
- [Appendix](#)

Summary

This event entity represents the instances where a special education student was physically or mechanically restrained due to imminent serious physical harm to themselves or others, imminent serious property destruction or a combination of both imminent serious physical harm to themselves or others and imminent serious property destruction.

Object Triggering Logic

Action	Business Rule(s)
Post	<p>Reports a record when a Behavior Response exists with a local Behavior Response Type that is mapped to an Ed-Fi Code through its Type AND the Date of Incident or Response Date is within the configured year.</p> <ul style="list-style-type: none"> • The overall Incident must be a Status of Complete to report a record. • Do not report a record if the any of the following exclusions are present: <ul style="list-style-type: none"> ◦ Enrollment State Exclude ◦ Enrollment No Show ◦ Enrollment Grade Exclude from State Reporting ◦ Enrollment State End Status of <i>D1</i>, <i>D2</i>, or <i>D3</i> ◦ Calendar Exclude ◦ Calendar Summer School ◦ School Exclude

Delete /Post Put	<p>A DELETE / POST will be performed if the data element being altered is part of the resource's natural key. A PUT will be performed otherwise.</p> <ul style="list-style-type: none">• When the following information on a Behavior Incident is changed:<ul style="list-style-type: none">◦ Status• When the following information on an Enrollment is changed:<ul style="list-style-type: none">◦ State Exclude◦ No Show◦ Enrollment End Status• When the following information on a Plan is changed:<ul style="list-style-type: none">◦ Locked Status
Delete	<ul style="list-style-type: none">• When the student is now excluded in some way or no longer eligible to POST a record.• When the Behavior Response Date and Date of Incident are changed to be outside of the scope year.• When the Behavior Response is deleted.• When the Behavior Incident is deleted.

Required Resources (Upstream)

The following resources must be sent prior to this resource:

- Schools (Pre-populated)
- Students
- Programs (Pre-populated)

Dependent Resources (Downstream)

The following resources are dependent on this resource (must be sent after this resource):

- N/A

Error Log

The following are potential Tier 1 (Ed-Fi API generated) or custom (Campus generated) errors you may receive when posting, updating, or deleting this resource. Please keep in mind that the "Error Message" below may not match your exact error message.

Error Message	Possible Causes / How to Fix
400: Validation of ' RESOURCE ' failed. FIELD is required.	An element of the JSON that is required is missing and needs to be added. <ul style="list-style-type: none">• Double check that all bolded data elements below are reporting a valid value and no data elements below are reporting an invalid value.
400: ' RESOURCE ' failed. RESOURCE reference could not be resolved.	A resource that was referenced from a difference resource does not yet exist. <ul style="list-style-type: none">• Resync the resource being mentioned in the error, then resync the errored resource. Alternatively, the resource being referenced may be incorrect. This can happen with Schools and the Ed-Fi School ID being used as an example. Double check the referenced values being sent are valid.

<p>403: Authorization denied. The claim does not have any established relationships with the requested resource.</p>	<p>The key/secret being used does not have permission to send a record for the resource / referenced resource.</p> <ul style="list-style-type: none"> • Double check your API credentials (key/secret). Sometimes specific keys/secrets cannot report specific resources. • The referenced person (student, staff, parent, contact, etc.) has not yet been associated to the key /secret. Resync their "linking" resource (Students Student School Associations, Staffs Staff Education Organization Assignment Associations, etc.) then resync the errored resource. • The referenced person (student, staff, parent, contact, etc.) may not exist in the ODS yet. Resync the "person" resource and the "linking" resource (Students Student School Associations, Staffs Staff Education Organization Assignment Associations, etc.) then resync the errored resource.
<p>404: Failed to delete 'RESOURCE'. Record does not exist.</p>	<p>The attempt to delete a specific Ed-Fi record ID in the ODS failed because it did not exist.</p> <ul style="list-style-type: none"> • This error can be ignored. The ID was cleared from the Ed-Fi Identity Mapping Report and will not attempt to delete again.
<p>409: A natural key conflict occurred when attempting to create a new resource 'RESOURCE' with a duplicate key.</p>	<p>The Ed-Fi API has a natural key system alongside a standard REST ID system. This error is often protecting against the erroneous creation of a duplicate record in the API. However, it may also indicate that the natural key requirements of the Ed-Fi API have not been satisfied, and the key needs to be modified.</p> <ul style="list-style-type: none"> • Check for duplicate data in your Campus site. If no duplicate data can be found, report the issue to Campus Support. <ul style="list-style-type: none"> ◦ This can be caused by numerous issues. Our code may be attempting to send duplicate records when it should not. The natural key (bolded fields below) may not be unique enough to satisfy Ed-Fi requirements in all cases. Most times this error will require a code change to fix.
<p>409: The resource (or a subordinate entity of the resource) cannot be deleted because it is a dependency of the 'RESOURCE' entity.</p>	<p>The resource that the application is attempting to delete is referenced from another entity.</p> <ul style="list-style-type: none"> • Use the Delete Tool to delete the referenced resource in the error message. Then retry the delete on the original resource that errored.

500: Internal Server Error.	<p>Something unexpected happened and no specific error message could be returned.</p> <ul style="list-style-type: none"> • This issue usually occurs when the ODS is having issues. Confirm that there are no issues with the ODS the data is being sent to and then attempt to retry the errored record. • Contact Campus Support if 500 errors continue to occur, can be replicated consistently, and the ODS the data is being sent to has no ongoing issues. <ul style="list-style-type: none"> ◦ There is a chance that Campus Ed-Fi code is sending an invalid JSON request resulting in the 500 error. ◦ There is a chance that an Ed-Fi Data Standard / API bug is causing the issue. ◦ Investigation is needed in these cases as there are many different potential causes.
-----------------------------	--

Object Data Elements Logic

Data element labels below in **BOLD** are part of the natural key of this resource and are required data elements for the record to send through Ed-Fi.

- The Mandatory / Conditional / Optional column indicates what the state requires for each data element. For Core Ed-Fi connections, it indicates what the data standard requires for each data element.

	Data Element Label	Business Rule(s)	Mandatory (M) Conditional (C) Optional (O)	Data Source GUI Path	Database Field	Uses Template Logic (✓ / ✗ / EXT)
1	restraintEventIdentifier (<i>string</i>)	<p>A unique number or alphanumeric code assigned to a restraint event by a school, school system, state, or other agency or entity.</p> <hr/> <p>Reports the Behavior Response ID.</p>	M	Behavior	BehaviorResponse . responseID	✗
2	schoolReference (<i>reference</i>)	<p>A reference to the Schools resource associated with the Restraint Event being reported.</p> <hr/> <p>Reports the fields that are part of the Natural Key for the Schools resource.</p>	M	N/A	N/A	✗

3	studentReference (<i>reference</i>)	<p><i>A reference to the Students resource associated with the Restraint Event being reported.</i></p> <hr/> <p>Reports the fields that are part of the Natural Key for the Students resource.</p>	M	N/A	N/A	
4	eventDate (<i>date</i>)	<p><i>Month, day, and year of the restraint event.</i></p> <hr/> <p>Reports the Response Date.</p>	M	Behavior	BehaviorResponse . date	

5	programs (array)	<p><i>An unordered collection of restraintEventPrograms. The special education program associated with the restraint event.</i></p> <hr/> <p>Reports the following data elements in an array when the student has a locked Plan with a Print Format of <i>NM Exceptionality (state reporting)</i> that overlaps the Response Date AND that Plan does not have a Primary Area of Exceptionality of 3: <i>Gifted Only</i>:</p> <ul style="list-style-type: none"> • programReference <ul style="list-style-type: none"> ◦ educationOrganizationId <ul style="list-style-type: none"> ▪ Reports the District Number if reporting from a multi-connect Ed-Fi connection. ▪ If District Number is NULL or reporting from a single Ed-Fi connection, report the Ed-Fi District Number ◦ programName <ul style="list-style-type: none"> ▪ Reports Special Education ◦ programTypeDescriptor <ul style="list-style-type: none"> ▪ Reports Special Education 	C	Special Ed Documents Behavior	Plan .locked BehaviorResponse .date	
6	restraintTypeDescriptor (string)	<p><i>Type restraint employed on student.</i></p> <hr/> <p>Reports the Ed-Fi Code mapped to the Type of the Response Type selected.</p>	M	Behavior Response Type Setup	BehaviorResponse .responseTypeID BehaviorResponseType .responseType	EXT
7	educationalEnvironmentDescriptor	This is optional, does not report.	O	N/A	N/A	N/A
8	reasons	This is optional, does not report.	O	N/A	N/A	N/A
