

Call Log Review

Call History Summary

There are basic two call log reports available. The Call History Summary which will show you the total number of calls per extension number of calls, incoming, outgoing, average duration and total duration of calls, on a per day basis.

Access the report by starting at Call History, then Call History Summary. Use the legend (see red arrow) to select if you want a specific extension (leave blank for all) and what dates/times you want the report to reflect. Click Search for the report information to display. Note at the bottom of the page you can select the page you are viewing or the number of records to display per page.

If the customer desires more reporting capabilities, there are Analytic Reports which are available for more detailed reporting on trunks, or hunt groups, etc. There are three Analytics supervisor licenses available, based on the types of reports desired. There is a license fee per Analytics Supervisor as well as an Endpoint License applied to all users, based on the reporting package selected. For more information and pricing on this option, please reach out to Kim Macdonald at 217-241-5699 or kmacdonald@vertical.com.
