Change Control

| Change Version | Date | Page Version | Author (s) | Description of Change | Campus Effective Version (s) |
|----------------|-----------|--------------|----------------|---|------------------------------|
| 1.0 | 11/19 /15 | | | Initial Migration | |
| 1.1 | 11/12 /21 | | Matt Lindstrom | Updating logic to look at the earliest previous IEP in the reporting date range or most recent previous IEP if there isn't a previous one in the date range when comparing to determine if there are changes that need to be reported | |
| 1.2 | 5/3 /22 | | Katie Gruber | Updated to include logic when pulling SPED data from 3rd party vendor | |

Overview

Summary

Reports a record whenever an IEP determination is made to add, confirm, or cancel an exemption from the consequences of any graduation assessment and/or individual graduation assessment areas.

Note: If SPED third party integration is set up then SPED data will be pulled through API, not Infinite Campus. If incorrect data is extracted, the district will need to work in their 3rd party system to correct the data so it can be extracted. [Set Up Script and API Documentation](#)

Due Dates

K - October N - Yearend

Scope and Purpose

Functional Requirements

Reporting Population and Business Rules

| # | Requirement | UI Location |
|---|-------------|-------------|
|---|-------------|-------------|

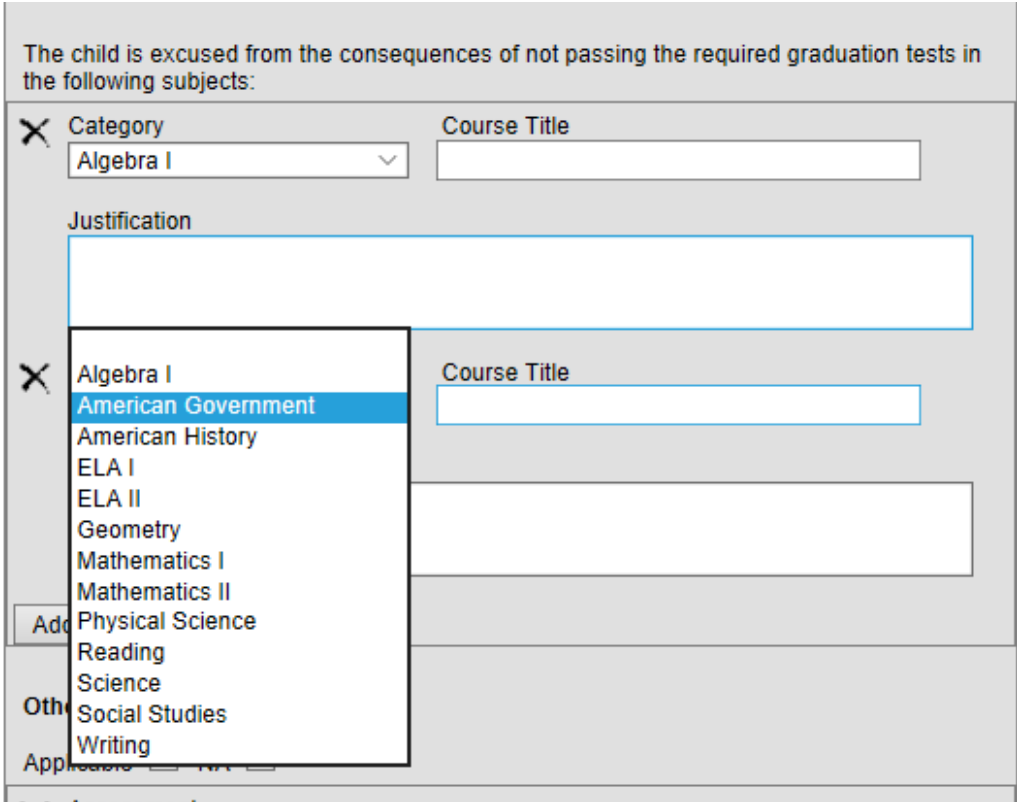

R1 Record Population

If third party SPED integration is set up then:

- a. Make API call
- b. Set parameters
 - i. When calendar is selected, the fiscal year associated with the calendar and the building number should be passed through API.
 - ii. When reporting period is selected, the reporting period should be passed through API.
 - iii. When start and/or end dates are entered, start and end dates should be passed through API.
 - iv. When ad hoc filter is selected, the EMIS Student ID numbers should be passed in the filter through API.
- c. Extract data
- d. Each record returned would create one record in the report.
- e. Records are matched with campus data on EMIS Student ID number

If third party SPED integration is not set up then follow existing/Infinite Campus documentation:

- Look at all IEPs that fall within the reporting date range on the reporting editor (If IEP = Initial or Annual Review, use Meeting Date. If IEP = Transfer, use Transfer Date. If IEP = Amendment, use Start Date)
 - Find the plan with the earliest date within the school year of the calendar being reported
 - Report a record for any exemptions marked as Y based on the exemption logic specified in R4-R7 if the start date of the plan is within the reporting window dates from the report editor (If IEP = Initial or Annual Review, use Meeting Date. If IEP = Transfer, use Transfer Date. If IEP = Amendment, use Start Date)
 - Check to see if there is a plan any time before it
 - If not, no further records need to be reported for this plan
 - If there is a previous IEP, choose the most recent previous IEP (using the same dates used above) to compare to. If there are any exemptions that were marked in the previous IEP that are no longer marked in the IEP in the reporting range, report a record for each of those as N for the IEP
 - Check to see if there are plans after the earliest IEP in the reporting date range (using the same dates from above)
 - If not, no further records need to be reported
 - If there are subsequent IEPs, compare each to the previous IEP (based on the same dates from above) and report a record for each exemption that changes
