

Focus on specialised procedures/treatment

This document provides a guideline of the procedures/treatment covered on the various benefit options and paid from the Major Medical Benefit, irrespective of whether the procedure/treatment is performed in- or out-of-hospital. On the Evolve Option, certain specialised procedures are only covered in day hospitals. <u>Click here</u> for more.

Pre-authorisation is required regardless of where the procedure/treatment is performed. It is important to note that this is not the complete list of all procedures/treatment covered by the Scheme. Should you need clarity on whether a procedure/treatment is covered, please contact us to confirm.

- The costs of anaesthetists for gastroscopies and colonoscopies are covered up to R650 on Evolve and Custom, up to R1 360 on Incentive and Extender, and up to R1 610 on Summit (subject to pre-authorisation). For all other procedures, the costs of anaesthetists (if any) are covered if clinically appropriate.
- Some of the specialised procedures/treatment listed could attract a co-payment on the Evolve, Custom, Incentive and Extender Options, as illustrated below.

How specialised procedures/treatment are covered on the Evolve Option

The standard Evolve Option co-payment of R2 000 per authorisation applies to these procedures and treatments regardless of where they are performed

Plus the specialised procedures co-payment of R5 500 per authorisation applies if performed in an acute or day hospital

Arthroscopies, Back and neck surgery*, Carpal tunnel release, Functional nasal and sinus procedures, Joint replacements*, Laparoscopies

Performed in a day hospital or acute hospital, subject to the relevant co-payment listed above

Gastroscopies, Colonoscopies, Cystoscopies, Sigmoidoscopies, Nail surgery, Removing of extensive skin lesions

Performed out of hospital, in a day hospital or in an acute hospital, subject to the relevant co-payment listed above

Conservative back and neck treatment*, Removal of minor skin lesions, Treatment of diseases of the conjunctiva, Treatment of headache, Treatment of adult influenza, Treatment of adult respiratory tract infections

Low severity cases are not covered by the Scheme but can be paid from HealthSaver+, if available

 $\label{thm:linear} \textbf{High severity cases} \ \text{in an acute hospital are paid by the Scheme, subject} \\ \text{to the relevant co-payment listed above}$

How specialised procedures/treatment are covered on the Custom Option

The standard Custom Option co-payment of R2 000 per authorisation applies to these procedures and treatments regardless of where they are performed

Plus the specialised procedures co-payment of R2 000 per authorisation applies if performed in a day hospital, or R5 500 per authorisation if performed in an acute hospital (hospital where overnight admissions apply)

Arthroscopies, Back and neck surgery, Carpal tunnel release, Functional nasal and sinus procedures. Joint replacements. Laparoscopies

Performed in a day hospital or acute hospital, subject to the relevant co-payment listed above

Gastroscopies, Colonoscopies, Cystoscopies, Sigmoidoscopies, Nail surgery, Removing of extensive skin lesions

Performed out of hospital, in a day hospital or in an acute hospital, subject to the relevant co-payment listed above

Conservative back and neck treatment, Removal of minor skin lesions, Treatment of diseases of the conjunctiva, Treatment of headache, Treatment of adult influenza, Treatment of adult respiratory tract infections

Low severity cases are not covered by the Scheme but can be paid from HealthSaver*, if available

 $\label{thm:linear} \textbf{High severity cases} \ \text{in an acute hospital are paid by the Scheme, subject} \\ \ \text{to the relevant co-payment listed above}$

How specialised procedures/treatment are covered on the Incentive and Extender Options

A co-payment of R2 000 per authorisation applies to these procedures and treatments if performed in a day hospital Or a co-payment of R5 500 per authorisation applies to these procedures/treatment if performed in an acute hospital (hospital where overnight admissions apply)

Arthroscopies, Back and neck surgery, Carpal tunnel release, Functional nasal and sinus procedures, Joint replacements, Laparoscopies

Performed in a day hospital or acute hospital, subject to the relevant co-payment listed above

Gastroscopies, Colonoscopies, Cystoscopies, Sigmoidoscopies, Nail surgery, Removing of extensive skin lesions

Performed out of hospital, in a day hospital or in an acute hospital, subject to the relevant co-payment listed above $\frac{1}{2} \int_{-\infty}^{\infty} \frac{1}{2} \int_{-\infty}^{\infty} \frac{1}{2}$

Conservative back and neck treatment, Removal of minor skin lesions, Treatment of diseases of the conjunctiva, Treatment of headache, Treatment of adult influenza, Treatment of adult respiratory tract infections

Low severity cases are not covered by the Scheme but can be paid from Day-to-day Benefits or HealthSaver*, if available

 $\label{thm:linear} \textbf{High severity cases} \ \text{in an acute hospital are paid by the Scheme, subject} \\ \text{to the relevant co-payment listed above}$

*HealthSaver is a complementary product. Momentum Medical Scheme members may choose to make use of additional products available from Momentum Group Limited and its subsidiaries as well as Momentum Multiply (herein collectively referred to as Momentum). Momentum is not a medical scheme and is a separate entity to Momentum Medical Scheme. Momentum products are not medical scheme benefits. You may be a member of Momentum Medical Scheme without taking any of the products offered by Momentum.
