## Object Data Elements

Data element labels below in **BOLD** are part of the natural key of this resource and are required data elements for the record to send through Ed-Fi.

- The Mandatory / Conditional / Optional column indicates what the state requires for each data element.
- The Uses Core Template Rules column indicates if the element uses Infinite Campus Core Ed-Fi rules, has been Localized using DOE rules, or the element has been added by a DOE as an Extended Element.

Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 701) which provides protections for individuals with disabilities. The definition for "individuals with disabilities" under Section 504 is more broad than the disability definition for IEPs and the IEP governing process.

Using the calendar tied to the student enrollment, identify a reporting window using the dates of the following Day Event Types. If more than one instance of these Day Event Types exist, use the earliest instance.

- 'AS' - the start of the reporting window
- 'AE' - the end of the reporting window

Review the students 504 records

504 records whose End Dates are BEFORE the reporting window are not eligible for reporting.

Using the calendar tied to the student enrollment, identify a reporting window using the dates of the following Day Event Types. If more than one instance of these Day Event Types exist, use the earliest instance.

- 'AS' - the start of the reporting window
- 'AE' - the end of the reporting window

If the state grade tied to grade on the student enrollment is equal to P3 OR P4 OR K, complete the following logic:

If the student is participating in a program **OR** flag **AND** the associated code = "w" OR "W" **AND** the program or flag is marked as State Reported **AND** the program or flag Start Date is on or within the Reporting Window, use the LATEST record to complete the following logic:

- Populate Student Classification Type with State Classification Code

If the classification is a program, complete the following logic:

### Object Data Elements

Data element labels below in **BOLD** are part of the natural key of this resource and are required data elements for the record to send through Ed-Fi.

- The Mandatory / Conditional / Optional column indicates what the state requires for each data element.
- The Uses Core Template Rules column indicates if the element uses Infinite Campus Core Ed-Fi rules, has been Localized using DOE rules, or the element has been added by a DOE as an Extended Element.
