WI Ed-Fi Suite 3 API v7.3 Data Standard v5.2: Student School Associations

Summary

This association represents the School in which a student is enrolled. The semantics of enrollment may differ slightly by state. Non-enrollment relationships between a student and an education organization may be described using the StudentEducationOrganizationAssociation.

Object Triggering

Action	Business Rule(s)
Post	<p>When a new enrollment is saved for a student. A record will report for each distinct enrollment in a School and Enrollment Start Date</p> <ul style="list-style-type: none">• Do not send a student record for an enrollment that is marked as State Exclude, No Show, or WISE Exclude• Do not send a record if enrollment is in a calendar marked as State Exclude, Summer School, or in a School marked Exclude• If Ed-Fi Configuration Profile = Choice + Opt in report a record for all eligible students if Choice = Yes or No on the student's enrollment• If Ed-Fi Configuration Profile = Choice AND Choice = No on Student enrollment, do not report a record• When school override is populated with a school other than enrollment school
Put	When State Enrollment Type is updated for a student
Delete/Post	When the start date of an enrollment is changed
Delete	<p>When an enrollment is deleted</p> <p>When the State Exclude, No Show, or WISE Exclude check box is checked</p> <p>When School Override is removed or changed to the same school as enrollment school</p>

Pupil Count/Membership:

1. Only report for students with State Enrollment Type = Primary, Membership, or Coursework Only for Public profile only:
 - a. Note: Do not report for students with State Enrollment Type = PPP
 - b. **M-1FM**
 - i. **If the date is on or after the 1st Friday of May, add the Ed-Fi value from the Count Date Name Type for M-1FM to the array if the student meets the following criteria:**

1. Only show countDateNameDescriptor if entityID = 4387
2. If the Alternate Membership Count Date for 1st Friday of May for the configuration being reported is populated, report based on this date instead of 1st Friday of May
3. If the student has a value selected for 1st Fri of May Ovr - Milwaukee (Student Info > State Programs > Pupil Count), report the value
 - a. Pupil Count record must overlap enrollment being reported
4. If the override field is blank:
 - a. Report 'Not Receiving Services' if the student is absent on count date and has 0 attendance before count date for the config/school year
 - b. Report student as 'Present' if all of the following are true and entityId = 4387 (Milwaukee):
 - i. Student must be scheduled for at least one instructional period on the 1st Friday of May, and:
 - ii. The student is present in that period on the 1st Friday of May (a period with no absence)
 1. Absences with a Status of "Early Release" or "Tardy" or "Present" are ignored by the logic (not considered absences)
 2. Absences must have a Status of "A" on the effective date to count in this calculation.
 3. Absences with an Excuse of "Exempt" are ignored by the logic (not considered absences). All other Excuses are accepted
 - c. If the student is absent on count date but present for at least 1 day before count date for the school year and is a resident of the district (census status = any resident codes), report 'Absent'

c. M-3FS

- i. **If the date is on or after the 3rd Friday of Sept, add the Ed Fi value from the Count Date Name Type for M-3FS to the array if the student meets the following criteria:**

1. If the Alternate Membership Count Date for 3rd Fri of Sept for the configuration being reported is populated, report based on this date instead of 3rd Friday of Sept
 2. If student has a value selected for the 3rd Fri of Sept Mem Override (Student Info > State Programs > State Programs > Pupil Count), report the value
 - a. Pupil Count record must overlap enrollment being reported
 3. If override field is blank:
 - a. Report 'Not Receiving Services' if the student is absent on count date and has 0 attendance before count date for the config/school year
 - b. Report student as 'Present' if all of the following are true and entityId = 4387 (Milwaukee):

Full Schedule Students calculation

1. For each enrollment included in the record calculation from the enrollment start date to the current date, count the unique days of enrollment in each calendar for the days marked Instruction, School, and Attendance AND day event is NOT 99: Health Emergency (the days with this day event must be excluded from the calculation)
 - a. If the student is not scheduled on that date, do not add any possible days of attendance for that date
 - i. If the student is scheduled into Attendance taking courses, add 1 to the possible days of attendance
 - b. Includes both Regular and Cross-Site schedules in the calculation

Partially Scheduled Students calculation

1. For each enrollment included in the record calculation from the enrollment start date to the current date, count the unique days of enrollment in each calendar for the days marked Instruction, School, and Attendance AND day event is NOT 99: Health Emergency (the days with this day event must be excluded from the calculation)
 - a. If the student is not scheduled on that date, do not add any possible days of attendance for that date
 1. If the student is scheduled into Attendance taking courses, add 0.5 to the possible days of attendance
 - b. Includes both Regular and Cross-Site schedules in the calculation

Report the total of all possible days of attendance from the beginning of the enrollment to the current date
