THE COMPLETE STRATA MANAGEMENT SOLUTION

What’s New 3

1. New Merge Field – Committee Spending Limit3

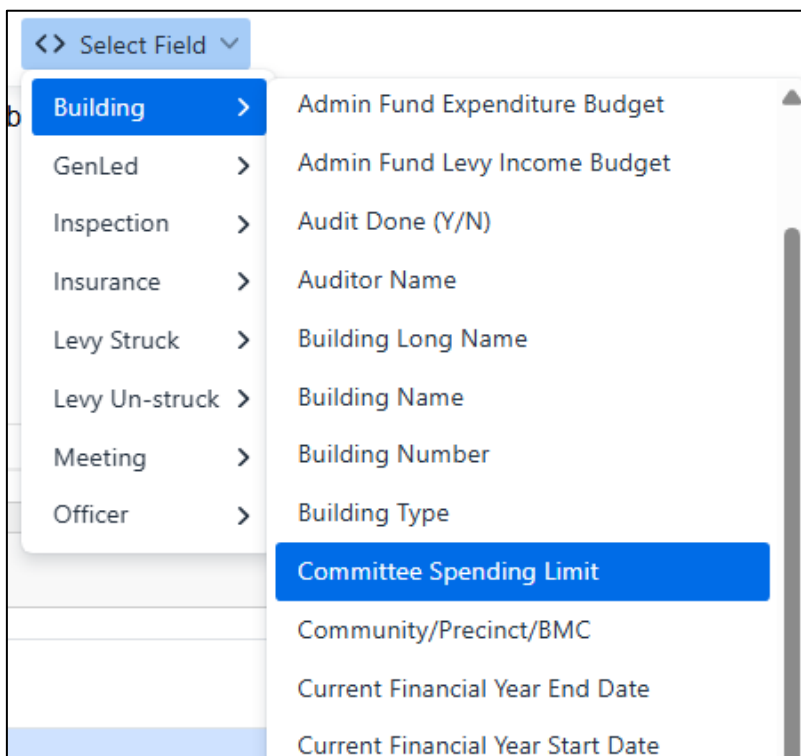

2. VoteMax – End of Meeting Exit Page Added.....3

What’s Better 5

What's New

1. New Merge Field – Committee Spending Limit

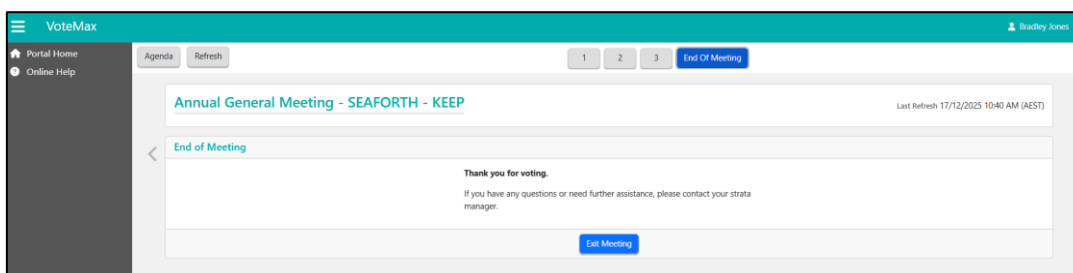

A new merge field is now available across Meeting Hub to populate the Committee Spending Limit. This value is sourced from Building Information in BCMax.

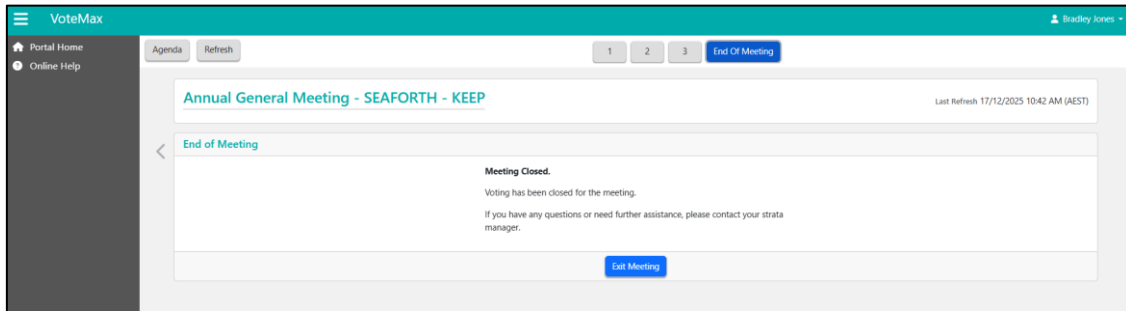

2. VoteMax – End of Meeting Exit Page Added

A new 'End of Meeting' page has been introduced for attendees voting In Meeting via VoteMax. This page provides a clear closing page after the last motion, confirming the end of voting and allowing voters to exit the meeting and return to the VoteMax Meetings page.

'End of Meeting' page when a meeting is in progress.

'End of Meeting' page when a meeting has been held and voting has closed.

What's Better

- When using the 'Preview Notice' or 'Preview Minutes' options on the 'Standard Meeting Details' page within Meeting Hub, merge fields will now be automatically populated.
- Additional validation has been introduced in Meeting Hub to ensure an attendee's voting status is not changed to 'Non-Voting Attendee' after votes have been recorded for them.
- Enhancements have been made to Meeting Hub to ensure the Offline Voting Register is generated successfully when there are multiple proxies for a lot.
- Improved validation now ensures the VoteMax – Committee Election Voting setting is only available for valid meeting types.
- Headings on the 'Meeting Creation' page have been adjusted to ensure they collapse and display correctly when creating Ballot Only meetings.
- A refresh error that was occurring when progressing a meeting in Meeting Hub after making changes has been successfully resolved.
