PARENTS & STUDENTS

The Campus Parent and Campus Student Portals empower families and students to stay informed about school activities. These portals not only provide a convenient place to check student details regarding attendance, scheduling, and grades but also enable schools to streamline various processes, including school fees, required forms, and assignment submissions.

PARENT PORTAL NAVIGATION

- **Home** – The Home screen displays all of a parent's students and summarizes information that may require the parent's attention.

- **Grades** – Shows all grades earned by the selected student for term grades and academic standards.

- **Fees** – Presents a list of all fees assigned to a student, with the option to pay online.

- **School Store** – Enables families to purchase items available for sale through the school. Additionally, families can register for district activities through the Campus Portal.

PARENT PORTAL SELF SERVICE

- **Documents** – Lists files relevant to the student, including plan documents, evaluations, schedules, reports, transcripts, and various forms. Schools can also publish digital forms that can be completed and signed through the Campus Portal.

- **Contact Preferences** – Allow users to specify how they prefer to receive messages, whether via phone, email, or text message, and under what circumstances (e.g., general, emergency, attendance, etc.).

- **Absence Request** – Enables parents to submit a request, informing the office in advance when their student will be absent.

- **Online Registration** – Enables new households to enroll in the district and allows returning families to review their information during the annual renewal process.

STUDENT PORTAL FEATURES

- **Student Questions** – Through the Student Questions feature, students can pose questions to teachers via the Campus Student Portal, and teachers can respond within the Teaching Center.

- **Online Submission** – Allows students to submit work through various formats in the Campus Student Portal, such as a text editor, file upload, or via Google Drive.
