## Overview

### Summary

The Student Assessment (FA) Extract reports general assessment information based on the Test settings and the student's score record. Districts are required to report one record per student, per state assessment type, per assessment area/subject, per assessment date on/between the start/end date selected on the extract editor for all tested grade levels.

1. There are multiple Assessment Types to choose from when Generating the OH Extracts > Student Assessment (FA) report.
  - a. *Each Type returns in the same format & field order*
  - b. *Each Type has unique reporting population requirements*
  - c. *Each Type may have Field Logic differences between the Assessment Types generated*
2. State Reported Assessment Types by 'set-up' location:

**Report Data Elements**

- State Format is FIXED WIDTH. When reported as blank, all fields MUST return the defined number of spaces for that field.
  - Fixed Width generates without a Header Row
  - HTML generates with a Header Row

These 3 fields ONLY return when generated in HTML Format to assist in debugging
