TabushGroup

Tabush Group's New User Onboarding Process ensures that your new hires are fully set up before their start date, so they are confident, informed, and ready to be productive on day one. Our proven process provides new users with access to all of the required systems and tools, while ensuring the appropriate levels of security and permissions are in place.

HOW OUR NEW USER SETUP WORKS

1 Client submits new user request

2 Account created within one business day

3 Setup completed prior to new user start date

4 Welcome details provided to client

5 Day–one onboarding call conducted

6 Confirmation and ticket closed

WHAT WE NEED FROM YOU

- Submit requests via Support Portal
- Provide at least 5 business days' notice if possible
- Ensure the user is available for onboarding call
- Confirm setup prior to user's start date
- Share feedback

HARDWARE AND EQUIPMENT

- Bring your own devices, or we can help purchase new devices
- Devices must meet minimum specifications
- User signs in and we complete setup

OUR COMMITMENT

We are committed to delivering a smooth, consistent onboarding experience so new users start strong.
