

Tabush Group's New User Onboarding Process ensures that your new hires are fully set up before their start date, so they are confident, informed, and ready to be productive on day one. Our proven process provides new users with access to all of the required systems and tools, while ensuring the appropriate levels of security and permissions are in place.

HOW OUR NEW USER SETUP WORKS

WHAT WE NEED FROM YOU

Submit requests via Support Portal

Provide at least 5 business days' notice if possible

Confirm setup prior to user's start date

Ensure the user is available on day one for onboarding call

Share feedback

HARDWARE AND EQUIPMENT

Bring your own devices, or we can help purchase new devices

Devices must meet minimum specifications

User signs in and we complete setup

OUR COMMITMENT

We are committed to delivering a smooth, consistent onboarding experience so new users start strong.
