Version Control

Version	Date	Author(s)	Brief Description of Change
1.0	08/18/15	@Caitlin Kukowski	Initial Creation: Moved old information to new layout.
1.1	8/12/2025	@Michele Johnson	Converting FRD to new template

Overview

Summary

Provide a summary of what the report/function will cover and the logistics around the data collection or reporting.

Due Dates

Ongoing throughout the year

Scope and Purpose

This report sends a wide variety of student data to the state for students enrolled in a calendar. This is used in part for student funding.

Functional Requirements

Reporting Population and Business Rules

#	Requirement
R1	Of the non-state-excluded enrollment records tied to the calendar selected in the extract editor:
R1.BR1	• If there is a single enrollment, report off of that
R1.BR2	• When a student is enrolled in more than one calendar selected in the Extract editor, the following applies: When their are multiple enrollments in the same school, data from the most recent enrollment is used. When their are multiple enrollments in different schools, the data from the Primary enrollment is used. • If no primary enrollment, then report Special Ed, if no Special Ed, then Report Partial.
R2	Do not report for summer school enrollments
R2.BR1	1. Individual columns in the extract populate per submission based on 'Optional Fields Allowed' status selected in the extract editor, and whether each column output is listed as Optional / Required / Conditional by the state for that specific export: *see layout for specific field population per submission logic* a. When 'Optional Fields Allowed' is checked on the extract editor, all fields are expected to return a value: Conditional fields may be blank if they do not meet the condition. b. When 'Optional Fields Allowed' is NOT checked on the extract editor - the field MUST be NULL if it does not meet the condition OR is listed as optional or for that collection.
R2.BR2	1. **'no show'** students: a. No records return in OCT - DEC - FEB - APRIL Student Core b. May return in June Cycle showing them entering on the first day of school and then exiting that same day with the appropriate exit status. Any student a district ends with the prior year should be shown as entering on the first day of school the next year and then show whatever their status is at that point.

MemberFTE is required when ResidencyStatus is R1, NR, FL, DI, or R2.
(Student Info> General> Enrollments> State Reporting Fields> State Aid)
Returns blank if State Aid = PT.
Value MUST be <= 1 and >0. An FTE greater than 1.00 will report for summed percent enrolled enrollments, if sum is more than 1.00. Users will correct FTE if fte sum is greater than 1.00.
For Grade Level (mapped state code) with Kindergarten Code KA/KP FTE must report as 1.00 regardless of Percent Enrolled(Out of 100) value.
Enrollment Service Types are considered up to a maximum value of 1.00:

P: Primary
S: Partial
N: Special Ed Services

Enrollments with no end dates within report generation date range
If student only has enrollments with end dates, report FTE from most recent end dated enrollment.

If multiple enrollments have the same most recent end date, sum FTE of those enrollments.
No show students will report FTE from enrollment>Percent enrolled

Consider all of the student's enrollments across the reporting year to determine how the field returns. The field will report a Y if:

The student has been enrolled in the district since the last Wednesday in September (on or before) until the final day of the school year without interruption and the First Date in District field is populated on the student's enrollment record.
report Y for students with an enrollment End Status associated with state code G01 or G03 and enrollment end date is on or before the last instructional day of the year when the rest of the current logic is followed: (Enrolled since the last Wed of Sept without interruption and the First Date in District field is populated)

The field will report a N in the Enrolled All Year field if:

The student begins enrollment after the September Count Date, which is the last day in September.
The student ends enrollment prior to the last day of school in the calendar.
The student has multiple enrollments in the district, and there is a gap of at least one instructional day in between such enrollments.
The student has a Residency Status = R2.

A student enrollment will be disregarded by the field logic if:

The enrollment is flagged as 'No Show'.
The enrollment is flagged as 'State Exclude'.
The enrollment is in a calendar flagged as 'Exclude'.
The enrollment is in a calendar flagged as 'Summer School'.
The enrollment is in a grade level flagged as 'Exclude from State Reporting'.

Calculations or Logic

1	Identify the Report Data Elements that use this calculation.	Type calculation or logic requirements here.
2		
3		
4		
5		

Appendix A - Data Setup

Code	Meaning	Logic
C	Conditional	Only report a value for this column if the logic requirements are met.
N	Not Allowed	Do not report a value for this column.
O	Optional	Only report the value indicated in the logic if the report is run with the "Include Optional Fields" checkbox selected. Leave blank otherwise.
OC	Optional, but actually Conditional	The state designates this as an Optional column, but in practice, the state would like all data reported, so long as the logic requirements are met.
R	Required	Always report a value.

Reporting Period	Reporting Population Logic	Snapshot Date
October	1 record per actively enrolled PK-12 student on the effective date selected on the extract editor	
December	1 record is required per PK-12 student that is actively enrolled on the effective date selected on the extract editor **AND** has an active IEP	
February	1 record per actively enrolled PK-12 student on the effective date selected on the extract editor: (snapshot = Last Weds of January)	
April	• The April Student Core data collection requires a single record for each student that has taken a state assessment. • All students, kindergarten through grade 12, are reported in the April Student Core file. ◦ *The editor also contains a "MAP Administration Date" field that is used in logic by report fields Not Fay District & Not Fay School.*	
June	• 1 record per PK-12 student: ◦ Enrolled at some time within the start and end date range selected on the extract editor (includes grads, dropouts, and transfers) **OR** ◦ Who had dropped out or moved during the prior summer. *Majority of the data set-up entered in Student Info> General> Enrollments> State Reporting Fields & Census> People> Demographics> Person Info.*
