

AZ Ed-Fi Suite v7.3, Data Standard v6.0: Staff Education Organization Assignment Associations (SY 26-27)

Table of Contents

- [Summary](#)
- [Object Triggering Logic](#)
- [Required Resources \(Upstream\)](#)
- [Dependent Resources \(Downstream\)](#)
- [Error Log](#)
- [Object Data Elements Logic](#)
- [Appendix](#)

Summary

This association indicates the education organization to which a staff member provides services.

Object Triggering Logic

Action	Business Rule(s)
--------	------------------

Post

Reports a record when a person has a District Assignment record that overlaps the configured year **AND** they have a Staff Unique ID **AND** they have an Assignment Code (District Assignment) that is mapped to an Ed-Fi Code.

- A record is only reported for District Assignments in the same School Year as the Ed-Fi Connection sending the record.
 - School Year dates are defined in School Year Setup.
 - If Start Date is NULL, 07/01/StartYear will be used.
 - If End Date is NULL, 06/30/EndYear will be used.
- Do not report a record if the any of the following exclusions are present:
 - Person has a NULL Staff Unique ID (whatever field is being used for the staffUniqueId data element below).
 - District Assignment Exclude
 - School Exclude

Delete/Post

Put

A DELETE / POST will be performed if the data element being altered is part of the resource's natural key. A PUT will be performed otherwise.

- When any of the following information is changed on District Employments:
 - District Employment ID (New District Employment)
 - Start Date
 - End Date
- When any of the following information is changed on District Assignments:
 - District Assignment ID (New District Assignment)
 - Start Date
 - End Date
 - Assignment Code
 - Exclude
- Changes to Resource Preferences mappings **do NOT trigger**. A manual resync must be performed on the resource if mappings are changed.

Delete

- When the District Employment / District Assignment is deleted or made to no longer overlap the configured year.
- When the Staff is now excluded in some way.
- When a record is in the Ed-Fi Identity Mapping Report but cannot be found on the Campus site.

Required Resources (Upstream)

The following resources must be sent prior to this resource:

- Local Education Agencies
- Schools
- Staffs
- Staff Education Organization Employment Associations

Dependent Resources (Downstream)

The following resources are dependent on this resource (must be sent after this resource):

- N/A

Error Log

The following are potential Tier 1 (Ed-Fi API generated) or custom (Campus generated) errors you may receive when posting, updating, or deleting this resource. Please keep in mind that the "Error Message" below may not match your exact error message.

Error Message	Possible Causes / How to Fix
---------------	------------------------------

400: Validation of '**RESOURCE**' failed. **FIELD** is required.

An element of the JSON that is required is missing and needs to be added.

- Double check that all bolded data elements below are reporting a valid value and no data elements below are reporting an invalid value.

400: '**RESOURCE**' failed. **RESOURCE** reference could not be resolved.

A resource that was referenced from a difference resource does not yet exist.

- Resync the resource being mentioned in the error, then resync the errored resource. Alternatively, the resource being referenced may be incorrect. This can happen with Schools and the Ed-Fi School ID being used as an example. Double check the referenced values being sent are valid.

403: Authorization denied. The claim does not have any established relationships with the requested resource.

The key/secret being used does not have permission to send a record for the resource / referenced resource.

- Double check your API credentials (key/secret). Sometimes specific keys/secrets cannot report specific resources.
- The referenced person (student, staff, parent, contact, etc.) has not yet been associated to the key/secret. Resync their "linking" resource (Students → Student School Associations, Staffs → Staff Education Organization Assignment Associations, etc.) then resync the errored resource.
- The referenced person (student, staff, parent, contact, etc.) may not exist in the ODS yet. Resync the "person" resource and the "linking" resource (Students → Student School Associations, Staffs → Staff Education Organization Assignment Associations, etc.) then resync the errored resource.

404: Failed to delete '**RESOURCE**'. Record does not exist.

The attempt to delete a specific Ed-Fi record ID in the ODS failed because it did not exist.

- This error can be ignored. The ID was cleared from the Ed-Fi Identity Mapping Report and will not attempt to delete again.

409: A natural key conflict occurred when attempting to create a new resource '**RESOURCE**' with a duplicate key.

The Ed-Fi API has a natural key system alongside a standard REST ID system. This error is often protecting against the erroneous creation of a duplicate record in the API. However, it may also indicate that the natural key requirements of the Ed-Fi API have not been satisfied, and the key needs to be modified.

- Check for duplicate data in your Campus site. If no duplicate data can be found, report the issue to Campus Support.
 - This can be caused by numerous issues. Our code may be attempting to send duplicate records when it should not. The natural key (bolded fields below) may not be unique enough to satisfy Ed-Fi requirements in all cases. Most times this error will require a code change to fix.

409: The resource (or a subordinate entity of the resource) cannot be deleted because it is a dependency of the '**RESOURCE**' entity.

The resource that the application is attempting to delete is referenced from another entity.

- Use the Delete Tool to delete the referenced resource in the error message. Then retry the delete on the original resource that errored.

500: Internal Server Error.

Something unexpected happened and no specific error message could be returned.

- This issue usually occurs when the ODS is having issues. Confirm that there are no issues with the ODS the data is being sent to and then attempt to retry the errored record.
- Contact Campus Support if 500 errors continue to occur, can be replicated consistently, and the ODS the data is being sent to has no ongoing issues.
 - There is a chance that Campus Ed-Fi code is sending an invalid JSON request resulting in the 500 error.
 - There is a chance that an Ed-Fi Data Standard / API bug is causing the issue.
 - Investigation is needed in these cases as there are many different potential causes.

Object Data Elements Logic

Data element labels below in **BOLD** are part of the natural key of this resource and are required data elements for the record to send through Ed-Fi.

	Data Element Label	Business Rule(s)	Data Source GUI Path	Database Field
1	beginDate (date)	<p><i>Month, day, and year of the start or effective date of a staff member's employment, contract, or relationship with the education organization.</i></p> <hr/> <p>Reports the District Assignment Start Date.</p>	District Assignment t	EmploymentA ssignment .startDate

2	staffClassificationDescriptor (string)	<p><i>The titles of employment, official status, or rank of education staff.</i></p> <hr/> <p>Reports the Ed-Fi Code mapped to the value selected for Assignment Code (District Assignment).</p> <ul style="list-style-type: none"> • This mapping can be found in the Resource Preferences of the Ed-Fi Connection under the Staff Education Organization Assignment Associations resource. • Reports Teacher if the Assignment Code is NULL or not mapped to an Ed-Fi Code. 	District Assignment	EmploymentAssignment.assignmentCode
3	educationOrganizationReference (reference)	<p><i>A reference to an Education Organization (Schools, Local Education Agencies, etc.) resource associated with the Staff Education Organization Assignment Association being reported.</i></p> <hr/> <ul style="list-style-type: none"> • When reporting from a District Employment: <ul style="list-style-type: none"> ◦ Reports the fields that are part of the Natural Key for the Local Education Agencies resource. • When reporting from a District Assignment: <ul style="list-style-type: none"> ◦ Reports the fields that are part of the Natural Key for the Schools resource. 	N/A	N/A

4	staffReference (reference)	<p>A reference to the Staffs resource associated with the Staff Education Organization Assignment Association being reported.</p> <hr/> <p>Reports the fields that are part of the Natural Key for the Staffs resource.</p>	N/A	N/A
5	endDate (date)	<p>Month, day, and year of the end or termination date of a staff member's employment, contract, or relationship with the education organization.</p> <hr/> <p>Reports the District Assignment End Date.</p> <ul style="list-style-type: none"> Do not report if the District Assignment End Date is NULL. 	District Assignment	EmploymentAssignment.endDate
6	positionTitle (string)	<p>The descriptive name of an individual's position.</p> <hr/> <p>Reports the Name of the Assignment Code (District Assignment).</p> <ul style="list-style-type: none"> If the Assignment Code is NULL, reports Teacher. 	District Assignment	EmploymentAssignment.assignmentCode
7	staffEmploymentOrganizationEmploymentAssociationReference	This data element is optional and does not report.	N/A	N/A
8	credentialReference	This data element is optional and does not report.	N/A	N/A

9	fullTimeEquivalency	This data element is optional and does not report.	N/A	N/A
10	orderOfAssignment	This data element is optional and does not report.	N/A	N/A
