

MD - At-Risk for Chronic Absence

Overview

Summary, Scope, and Purpose

The fundamental purpose of collecting data on students at risk for chronic absence is to empower both LEAs and MSDE to identify attendance challenges at the earliest possible stage in the academic year. Through systematic monthly data collection, MSDE can monitor attendance patterns statewide, identify emerging trends, and partner with LEAs to design and implement evidence-based interventions for students experiencing obstacles to consistent school attendance.

MSDE is dedicated to closely monitoring the attendance data of students who are at risk of chronic absence. This focus is on students who missed 10% or more of school days during the current school year. By identifying these at-risk students early, MSDE can strategically assist LEAs in developing and implementing targeted support initiatives aimed at improving attendance rates, enhancing academic engagement, and promoting better overall educational outcomes.

Appendix A: Absent Calculation

Calculation	UI Path
-------------	---------

1. When FTE override field on the enrollment is between 0 and 1 (not inclusive), then
 - a. Instructional Minutes = FTE override field * Instructional Minutes from Period Schedule or Days Event
 - i. Use instructional minutes from Days Event when non-zero
 - ii. Otherwise, use instructional minutes from Period Schedule
 - b. Whole Day Absent minutes = Instructional Minutes * .9
 - c. Half Day Absent minutes = Instructional Minutes * .5
2. When FTE override field on enrollment is 0, 1, or NULL, then
 - a. If Day Setup > Day Events > Instr Mins != 0
 - i. Instr Mins = the instructional minutes for that day (Day Event)
 - ii. Whole Day absent minutes = Instructional Minutes in Day Event * .9
 - iii. Half Day absent minutes = Instructional Minutes in Day Event *.5
 - b. Else,
 - i. Calculate the total number of absences for the reporting period based on the instructional minutes in Period Schedule

1. Student Information > General > Enrollments > State Reporting Fields > FTE
2. Scheduling & Courses > Calendar Setup > Period Setup > Instructional Minutes
3. Scheduling & Courses > Calendar Setup > Day Setup > Day Events > Inst Minutes

1. Instr Mins = the instructional minutes for that day
(Period Schedule)
2. Whole Day absent minutes = Instructional Minutes
in Period Schedule * .9
3. Half Day absent minutes = Instructional Minutes in
Period Schedule * .5
3. Calculate attendance based on the Instructional Minutes,
Whole Day Absent minutes, Half Day Absent minutes
 - a. If percent absent is $0 < 50$ then the student gets a
absent value of 0 for the day
 - b. If percent absent is $\leq 50 < 90$ then the student gets an
absent value of .5 for the day
 - c. If percent absent is $\leq 90 \leq 100$ then the student gets
an absent value of 1 for the day
 - d. Add up all the absent value for the reporting period to
get the total absent value
 - e. Absences are defined by any attendance code tied to a
state code of 1-21

Percent Absent	Absent Value	Attendance Value
$0 < 50$	0	1
$\leq 50 < 90$.5	.5

<=90<=100	1	0
